

October 1, 2012

To whom it may concern,

My name is Saqib Rana, I have been a pediatric nurse for over 14 years here at Scottish Rite children's hospital. It is my pleasure to endorse this wonderful new diaper innovation, I believe it's an idea that is going to change the diaper as we know it. Being a dad and pediatric nurse, I've seen quite a few marketing gimmicks in the diaper industry. The latest one being that silly wetness indicator. No, Diaperpods solves a problem we never imagined we would ever have help with, odor! This product is a god send for trips to the park, restaurants, just overall traveling (cars, planes, trains, etc.), and hospital use. I can't even begin to tell you how many parents this product will save from recurring embarrassment. The hospitals don't use Diaper Champs, so, you can imagine what these rooms are like after the parents throw out a few diapers in the trash. This idea is an obvious home run and I look forward to using this product in the near future. Please feel free to contact me, I would love to help anyway that I can.

Sincerely,

A handwritten signature in black ink, consisting of a large, stylized 'S' followed by 'R' and 'R'.

Saqib Rana, BSN, CPN
